Mantra's Global Delivery Center (GDC) in Pune, India

Customer Feedback

"... We engaged Mantra to help our company through RFP, vendor selection and SLAs. Mantra successfully delivered the ROI that we originally had planned. We found Mantra's ability to bring offshore teams closer to our in-house teams especially effective. Now, we are outsourcing Mantra all of our development projects." **VP of a Software Company**

"We outsourced one of our biggest .NET project to Mantra. Their team did outstanding job by meeting all 26 milestones of a phase, right on time, by delivering high quality code, effective project management and shortest ramp up times for resources."
- **IT Director, Client Organization**

GDC Best Practices

- Seamless adoption of Client's Processes and Methodologies
- High Visibility and Evolving Approach
- Establishment of a Partnership
- Time Overlap between offshore and client teams
- Fine-grained Milestones
- Frequent & Periodic Reviews
- Frequent Bug Bash
- Shadow resources in place for emergencies.

Data Security & IP Protection

- We understand the importance of client's company confidential information. We take all the precautions to protect IP and data security. Some of the initiatives for Data and IP protection:
 - Non Disclosure Agreement (NDA)
 - IT Security System Infrastructure
 - Security, Access Control and Fire systems
 - Background and reference checks on all employees
